NATIONAL EVENT ON 07 02 2019 IN UTRECHT FOR THE SCIENCE ON STAGE FESTIVAL 2019 IN CASCAIS/PORTUGAL

Apply now for the national pre-selection event 2018 for the European Science on Stage festival 2019 in Cascais, Portugal! Biology, chemistry, physics, mathematics and computer science teachers as well as primary school teachers are invited to hand in their most innovative teaching ideas by 31 01 2019

GUIDING THEMES

All projects represent inquiry-based learning approaches.

★ Science in Early Years

Projects for pre-school and primary school children

★ Digital Literacy and Science Education

Projects on subjects like coding, digital media or the Internet of Things

★ Sustainable Development in Science Education

Projects using science to explore environmental, health and sustainability issues

★ Astronomy and Space Exploration in Science Education

Projects with focus on e.g. astronomy, aerospace, life on other planets or space-flight inventions in everyday life

★ Low-Cost and Recycled Science

Projects with inexpensive or reused materials; easily adapted by everyone

★ Inclusive Science

Projects for all students – welcoming diversity

★ Joint Projects

Have you already participated in a previous Science on Stage festival? Then apply with a colleague you met there for a joint project!

Find the application form on www.science-on-stage.eu

APPLICATION CATEGORIES

★ Fair

The fair is the main element of the festival: All participants present their projects and experiments at stands in an exhibition.

Additionally you can apply with your project for one of the following categories at the international festival 2019 in Portugal (selection by the international festival programme committee):

★ Workshops

Interactive hands-on sessions from teachers for teachers

★ On Stage Performances

Participants present performances or experimental lectures on a stage

CRITERIA

The overall motto is 'from (school) teachers for (school) teachers'.

The ideal Science on Stage project:

- ★ promotes students interest in science,
- ★ refers to everyday life,
- ★ has a sustainable effect,
- ★ is feasible in everyday school life and can be financed with reasonable expenses,
- ★ promotes inquiry-based learning.
